Préambule

Liste de 40 affections générales historiquement ou actuellement associées à des foyers infectieux bucco-dentaires d'origine carieuse ou parodontale

1. *Endocardite infectieuse*
2. *Cardiopathies valvulaires compliquées d'endocardite*
3. *Bactériémie transitoire d'origine bucco-dentaire*
4. *Septicémie d'origine odontogène*
5. *Abcès cérébral*
6. *Méningite bactérienne*
7. *Sinusite maxillaire d'origine odontogène*
8. *Pneumonie d'aspiration*
9. *Infections respiratoires basses*
10. *Exacerbations de bronchopneumopathie chronique obstructive*
11. *Abcès pulmonaire*
12. *Empyème pleural*
13. *Médiastinite descendante d'origine cervicale odontogène*
14. *Cellulites cervico-faciales extensives*
15. *Angine de Ludwig*

16. *Thrombose du sinus caverneux*
17. *Ostéomyélite à distance sur dissémination hématogène*
18. *Arthrite septique*
19. *Infection sur prothèse articulaire*
20. *Spondylodiscite infectieuse*
21. *Infection de matériel orthopédique*
22. *Glomérulonéphrite post-infectieuse*
23. *Néphropathies aggravées par un foyer infectieux chronique*
24. *Pyélonéphrite sur bactériémie secondaire*
25. *Complications infectieuses chez le patient dialysé*
26. *Complications infectieuses chez l'immunodéprimé*
27. *Déséquilibre glycémique chez le patient diabétique*
28. *Diabète de type 2 aggravé par l'inflammation parodontale*
29. *Athérosclérose associée à l'inflammation parodontale*
30. *Maladie coronarienne*
31. *Infarctus du myocarde*
32. *Accident vasculaire cérébral*
33. *Anévrysme infecté*
34. *Complications de grossesse associées à la parodontite*
35. *Naissance prématurée*
36. *Faible poids de naissance*
37. *Polyarthrite rhumatoïde*
38. *Complications infectieuses chez les transplantés*
39. *Infections systémiques chez les neutropéniques*
40. *Aggravation de l'état inflammatoire systémique chronique*

Bibliographie III

SLJv4 260626

Références bibliographiques relatives aux foyers infectieux bucco-dentaires et à leurs liens avec la carie, les maladies parodontales et l'hygiène bucco-dentaire

Les foyers infectieux bucco-dentaires d'origine carieuse ou parodontale ont été impliqués, selon les données historiques et contemporaines, dans diverses complications infectieuses loco-régionales et générales, ainsi que dans plusieurs associations systémiques d'ordre inflammatoire.

524 Spinal arteriovenous malformations: surgical management. Xu DS, Sun H, Spetzler RF. Handb Clin Neurol. 2017;143:153-160. doi: 10.1016/B978-0-444-63640-9.00015-1. PMID: 28552138 Review.

525 Stereotactic radiosurgery results in three cases of intramedullary spinal cord arteriovenous malformations. Potharaju M, John R, Venkataraman M, Gopalakrishna K, Subramanian B. Spine J. 2014 Nov 1;14(11):2582-8. doi: 10.1016/j.spinee.2014.02.025. Epub 2014 Feb 15. PMID: 24534388

526 Endovascular management of spinal arteriovenous malformations. Ducruet AF, Crowley RW, McDougall CG, Albuquerque FC. J Neurointerv Surg. 2013 Nov;5(6):605-11. doi: 10.1136/neurintsurg-2012-010487. Epub 2012 Aug 30. PMID: 22935350 Review.

527 Spinal arteriovenous fistulae: surgical management. Day AL, Turkmani AH, Chen PR. Handb Clin Neurol. 2017;143:189-198. doi: 10.1016/B978-0-444-63640-9.00018-7. PMID: 28552141 Review.

528 Endovascular treatment of spinal arteriovenous malformations. Brinjikji W, Lanzino G. Handb Clin Neurol. 2017;143:161-174. doi: 10.1016/B978-0-444-63640-9.00016-3. PMID: 28552139 Review.

529 Stereotactic radiosurgery for intramedullary spinal arteriovenous malformations. Kalani MA, Choudhri O, Gibbs IC, Soltys SG, Adler JR, Thompson PA, Tayag AT, Samos CH, Chang SD. J Clin Neurosci. 2016 Jul;29:162-7. doi: 10.1016/j.jocn.2015.12.005. Epub 2016 Feb 8. PMID: 26869363

530 Classification and pathophysiology of spinal vascular malformations. Abecassis IJ, Osbun JW, Kim L. Handb Clin Neurol. 2017;143:135-143. doi: 10.1016/B978-0-444-63640-9.00013-8. PMID: 28552135 Review.

531 Spinal vascular malformations: treatment strategies and outcome. Flores BC, Klinger DR, White JA, Batjer HH. Neurosurg Rev. 2017 Jan;40(1):15-28. doi: 10.1007/s10143-016-0713-z. Epub 2016 Apr 13. PMID: 27075861 Review.

532 Spinal and paraspinal lesions: the role of stereotactic body radiotherapy. Gibbs IC. Front Radiat Ther Oncol. 2007;40:407-414. doi: 10.1159/000106050. PMID: 17641523 Review.

533 Vascular myelopathies-vascular malformations of the spinal cord: presentation and endovascular surgical management. Caragine LP Jr, Halbach VV, Ng PP, Dowd CF. Semin Neurol. 2002 Jun;22(2):123-32. doi: 10.1055/s-2002-36535. PMID: 12524557 Review.

534 Endovascular treatment of spinal cord arteriovenous malformations. Veznedaroglu E, Nelson PK, Jabbour PM, Rosenwasser RH. Neurosurgery. 2006 Nov;59(5 Suppl 3):S202-9; discussion S3-13. doi: 10.1227/01.NEU.0000237409.28906.96. PMID: 17053604 Review.

535 Rare association between spinal dural arteriovenous fistulas and dysraphisms: Report of two cases and review of the literature with a focus on pitfalls in diagnosis and treatment. Talenti G, Vitale G, Cester G, Della Puppa A, Faggin R, Causin F. Interv Neuroradiol. 2017 Oct;23(5):458-464. doi: 10.1177/1591019917714636. Epub 2017 Jul 4. PMID: 28675347
